Summary

- I am an enthusiastic and detail-oriented design intern with foundational skills in 2D drafting and 3D modeling, eager to support senior designers in creating, revising, and managing technical drawings and 3D assets. Familiar with design standards, drafting conventions, version control, and file management. Able to assist with 2D layouts, basic schedules, 3D models, rendering setup, material application, and asset libraries. Quick learner with a strong interest in continuous skill development, effective team collaboration, and delivering accurate design support in a fast-paced environment.

EDUCATION

- **B Tech, Computational Science and Design** (2022-2026)
Vimal Jyothi Engineering College
(Expected in 2026)
- **Higher Secondary in Science** (2020 - 2022)
Govt. Higher Secondary School, Padiyoor
- **High School** (2017 - 2020)
Govt. Higher Secondary School, Padiyoor

SKILLS

- **Languages)**
CSS, HTML, JavaScript, Java, Python, C, C
- **Libraries/Frameworks**
Pandas, Numpy, matplotlib, opencv
- **Cloud**
AWS
- **Databases**
MYSQL, MongoDB
- **Frameworks**
React.js, Node.js, Bootstrap
- **Development**
Web and software development
Front-end development and UI design
Web application and responsive web design
- **Virtual reality content creation**

- **Team collaboration and problem solving**
- **Public speaking and decision making**
- **Language knowledge**
Malayalam, English, Hindi
- **Other Skills/ Hobbies**
Bharathanatyam, Karnatic Music, Keralanadanam, Koodyattam

PROJECTS

- **Chatbot for VJEC Website** , AI-powered college bot for automated student queries, admissions, deadlines, and scholarships using Dialogflow, Webhook, Node.js, MongoDB.
- **StageEase** , AI system to help users beat stage fright via emotion detection, adaptive feedback, and AI avatars, using OpenCV, Unity Engine, cloud-based speech/emotion detection and VR.
- **Fruit Ninja (VR)** , Developed an immersive VR game using Unity3D, C with motion-tracked controls and real-time physics interactions and UI/UX design using figma.
- **Flappy Bird (2D)** , Developed using Unity and C with real-time physics, collision detection, and dynamic obstacle generation.
- **Car Racing Game** , Developed using Unity3D and C with realistic vehicle physics, AI opponents, and immersive 3D tracks.

Achievements

- **Rajya Purskar badged Guide** (2015-2020)
Bharat Scouts Guides
- **NSS Leader** (2020-2022)
Higher Secondary School, Padiyoor
- **NSS Volunteer** (2022-Present)
VJEC
- **Participated in Dist. level Keralolsavam in Keralanadanam, Karnatic Music** 2022-2023)
KERALA STATE YOUTH WELFARE BOARD
- **FOSS Club member**

EXPERIENCE

- **Skill Vertex** 08/2024 – 09/2024
Intern Bengaluru, India
 - Created responsive web designs using HTML, CSS, and JavaScript.
 - Ensured compliance with web standards.
 - Developed web applications, content, and layouts.
 - Improved site performance and navigation.
 - Acquired server-side scripting and database integration knowledge.

- **XR Horizon**
Internship

06/2025
Kochi, India

- Developed virtual reality content to boost user engagement.
- Participated in brainstorming sessions, generating innovative project concepts.
- Organized project documentation and asset libraries.
- Enhanced technical software capabilities.
- Developed accurate records for activities.
- Fostered staff and management collaboration.
- Set project goals and analyzed key indicators.

Global Certifications

- **VR/AR and UI/UX development: XR Horizon**
- **Web development: Skill Vertex**
