Summary

- I am a Computer Science and Design student specializing in game development and interactive application design, with hands-on experience in Unity3D, C, and VR-based projects. I have developed multiple 2D, 3D, and VR games with a focus on gameplay mechanics, physics systems, and user experience design. Alongside game development, I have strong skills in web development, UI/UX design, and programming across multiple languages and frameworks. I am passionate about creating immersive, interactive digital experiences and continuously improving my skills in game engines, real-time systems, and user-centered design.

EDUCATION

- **B Tech, Computer Science and Design** (2022-2026)
Vimal Jyothi Engineering College
(Expected in 2026)
- **Higher Secondary in Science** (2020 - 2022)
Govt. Higher Secondary School, Padiyoor
- **High School** (2017 - 2020)
Govt. Higher Secondary School, Padiyoor

SKILLS

Languages

CSS, HTML, JavaScript, Java, Python, C, C#

Cloud

AWS

Frameworks

React.js, Node.js, Bootstrap

Development

Web and software development

Front-end development

Responsive web design

Game development

Language Knowledge

Malayalam, English, Hindi

Libraries/Frameworks

Pandas, NumPy, Matplotlib, OpenCV

Databases

MySQL, MongoDB

Virtual Reality

VR content creation

VR game development using unity

Soft Skills

Team collaboration and problem solving

Public speaking and decision making

UI/UX Design

Figma, Photoshop

Other Skills/Hobbies

Bharathanatyam, Karnatic Music,

Keralanadanam, Koodyattam

PROJECTS

- **Chatbot for VJEC Website** AI-powered conversational system for student queries, admissions, and information handling using Dialogflow, Node.js, and MongoDB with webhook integration and backend logic design.

- **StageEase (VR + AI Project)** Immersive VR and cloud based public speaking trainer using Unity3D, Convai, and Base44. Integrating emotion detection, adaptive AI feedback, and real-time speech interaction to reduce stage fear.
- **Fruit Ninja (VR Game)** Developed a fully interactive VR slicing game in Unity3D using C, featuring motion-controlled gameplay, real-time physics interactions, scoring system, and immersive UI/UX design using figma.
- **Flappy Bird (2D Game)** Built a 2D arcade game using Unity and C implementing physics-based movement, collision detection, procedural obstacle generation, and game state management.
- **Car Racing Game (3D)** Developed a 3D racing game in Unity3D featuring vehicle physics, AI-controlled opponents, dynamic track design, and responsive gameplay mechanics.

Achievements	
• Rajya Purskar badged Guide Bharat Scouts Guides	(2015-2020)
• NSS Leader Higher Secondary School, Padiyoor	(2020-2022)
• NSS Volunteer VJEC	(2022-2025)
• Participated in Dist. level Keralolsavam in Keralanadanam, Karnatic Music KERALA STATE YOUTH WELFARE BOARD	(2022-2023)
• FOSS Club member	

EXPERIENCE	
• Skill Vertex Intern	08/2024 – 09/2024 Bengaluru, India
• XR Horizon Internship	06/2025 Kochi, India
• Liva Kitchens And Interiors Internship	03/2026 Palakkad, India

Global Certifications	
• VR/AR and UI/UX development: XR Horizon	
• Web development: Skill Vertex	
• 2D&3D Designer: Liva Kitchens And Interiors	

Declaration	
• I hereby declare that the above mentioned information is correct up to my knowledge and I bear the responsibility for the correctness of the above mentioned.
